CHAPTER 23

Impact of Functional Visceral and Somatic Pain/ Stress Syndromes on Cingulate Cortex

Stuart W. G. Derbyshire and J. Douglas Bremner

Chapter contents

Goals and Rationale of This Chapter 500
Irritable Bowel Syndrome 501
Neuroanatomy of Functional Pain: Visceral Syndromes 502
Fibromyalgia 503
Neuroanatomy of Functional Pain: FM 503
Non-specific Low-Back Pain 503
Neuroanatomy of Functional Pain: NSLBP 504
Overlap of Functional Pain and Stress 505
Depression Influences Cingulate Pain Processing 506
Cingulate Inactivation during Depression 507
Animal Models and Links between Pain and Stress Syndromes 508
Cingulate Links to Visceral and Somatic Pain and Stress Syndromes 509
References 509
