WHAT WE'RE ABOUT

We provide financial assistance services for impoverished elderly in our community by helping connect them to available long-term services/programs and offering one-time emergency assistance during open application periods. We also refer elderly individuals and their families to trusted service providers for areas such as home repairs, real-estate assistance, placement agencies, companionship services, etc.

A NONPROFIT FOR YOU!

Officially starting in 2022, we at Global Blessing Inc. hold within our values to serve as a nonprofit for the community. We are not only a senior service nonprofit, but are creating partnerships across different sectors to provide a more whole-life centered practice to provide help during the entire aging process.
