Washington State Crime Prevention Association Presents
Crime Prevention Through Environmental Design (CPTED) Certification Course

May 13-15, 2025, 8am – 5pm | Tumwater, WA

Crime Prevention Through Environmental Design (CPTED) is a proactive approach to security that enhances safety by strategically shaping the built environment. Instead of relying solely on traditional security measures, CPTED focuses on designing spaces that naturally deter criminal behavior while promoting positive interactions and a sense of community.

Hosted By:
Washington State Department of Labor & Industries

Location:
Labor and Industries Building
7273 Linderson Way SW
Tumwater, WA 98501

Registration Fee:

Lodging Recommendations:

Hilton Garden Inn

La Quinta Inn & Suites

Best Western

Questions: Info@wscpa.net

In this training, we'll explore the core principles of CPTED:

> Natural Surveillance

> Natural Access Control

> Territorial Reinforcement

> Maintenance

By the end of this session, you'll understand how CPTED can reduce crime opportunities, increase safety perceptions, and foster vibrant, secure communities.
