

SKILL FORGE MASTER MOLD COMPTIA

Overview

Whole Cyber Master Mold is our most comprehensive offering, bringing security engineer training on top of the certification training. This program is ideal for organizations that want to harness true entry-level and make a lasting impact while doing so. For the cost of 1 recruiter fee (est \$30k), we will train 10 individuals that you will be able to hire from as well as potentially fill any other open or future roles.

Why Choose Us

Whole Cyber Forge Breaker is tailored for those already familiar with tech concepts, providing a fast track to mastering cybersecurity skills while additionally adding vendor tool training you identify in your tool stack.

Set Your Standards

Choose 1 of the many CompTIA certs available and create **"your"** requirements to be accepted into your scholarship.

Set Precedence

Build a direct to hire pipeline while also meeting your annual CSR and supporting veterans.
