STRONGER TOGETHER NOW

ACADEMICS PROGRAM

STN Academics is available at your school! Our team aims to strengthen youth-focused education and engagement. These services support youth who are challenged academically and need support.

The STN Academics Team addresses barriers and increases the use of positive peer feedback. Academic and community support helps to develop new habits and skills through supportive strategies that increase well-being and academic choices/routines.

Our team offers 1:1 and small-group tutoring and/ or mentoring services. We also engage through community service with our local events and unique activities where students can participate.

The STN Academics Team has strong communication between tutors, teachers, students, and family. Our services take place in person for 1:1 attention. Students are matched with tutors during the school day or after school (including the weekends and instruction breaks).
