YOUTH EMPOWERMENT PROGRAM

STRONGER TOGETHER NOW

YEP COMPONENTS

Impactful Community Service

Connecting with local community increases empathy & understanding, which inspires action towards collective care.

Career Readiness

Aside from college preparation, youth should connect directly to local businesses and specialties through apprenticeships and internships.

Socio-Emotional Learning

Our team works with the youth to develop self-awareness, self-control, and interpersonal skills that are vital for life success.

Financial Literacy

Personal financial management, budgeting & investing is crucial to our youth. The foundational relationship to money starts young & based on life choices will have tremendous long-term impact.

STRONGER TOGETHER NOW

With three years under our belt as a 501(c)3 nonprofit, we have maximized effort to ensure impact as a collective. Our mission to help underserved communities in the IE by providing access to programs, organizations, resources & events is ever-present in our consistent work. It is most apparent in disenfranchised communities, as we dedicate efforts to educate, enable & empower marginalized, and often silenced individuals.
